

MicroCotton® Wamsutta® Perfect Soft Towels in White

www.bedbathandbeyond.com

These MicroCotton towels (\$14.99 for bath towels) are truly the softest and most absorbent towels ever. Made from 100% super-soft cotton, towels are fluffier, softer and more absorbent than others on the market. The yarn's unique structure makes these towels dry faster and even softer after each wash. Available in a variety of rich colors, the white are my favorite as the luxurious feel of the MicroCotton and color remind me of being at a swanky spa. After a steamy shower or hot bath, this is exactly what you want to wrap yourself in.
