Make Your Guest Feel At Home With The Wamsutta Micro Cotton Bath Towels

During the holiday from Thanksgiving through New Years, many of us will be entertaining family and friends. That means that some of them may be staying at your home. I have always wanted my guests to feel at home and comfortable, so I came up with a great way to welcome your guests into your home. When I stay at someone's house the first thing that enters my mind is, how are their towels. Believe it or not many people think the same way that I do. I have always struggled to find towels that are not only large enough but also soft and absorbant.

Recently I had the chance to check out some amazing towels that have now become my new obsession, and I don't know what I did without them. Micro Cotton bath towels are made from 100% super-soft cotton, which lends itself to an indulgently soft and breathable texture. They are available in a variety of colors and price points, to suite whoever you may be shopping for this holiday season. Sold in retailers nationwide, including **Dillard's**, **Macy's** and **Bed Bath & Beyond**, they are easy to find while holiday shopping. They are also perfect for that cross-country friend or family member whose gift you always have to put in the mail – and don't want it to weigh a ton!

Micro Cotton brand products were conceived with a desire to evolve and expand the concept of luxury and design for a complete bath experience through their signature cotton's fiber structure, which provides superior softness, absorbency, and durability and a faster drying time.

I can't tell you how super impressed I am with these towels. They are so soft and even after a couple of washes remain soft and absorbent. I decided that I would show you how I will be greeting my guests this holiday using these amazing towels.

The [Wamsutta Micro-Cotton Bath towels](#) alone are just perfect for greeting guests but if you want to make it a bit more personal try using the [Epson Label Works Printable Ribbon Kit](#) (posting coming soon). This thing is amazing, and you can really come up with creative ways to greet your guests with their lush towels.

I took the ribbon and just printed Happy Holidays, but you could get really creative and write whatever you would like. I then wrapped the washcloth with the printed ribbon and a beautiful bar of soap from LEVEL. This just makes for a great presentation and makes your guests feel so very welcome.

I would suggest checking out the Wamsutta Micro Cotton Towels, and I know your guests will thank you for it. These also would make a great gift this holiday season, and again you could make the presentation perfect with the Epson Label Works Printable Ribbon Kit. These towels can be found on multiple sites including [Bed Bath & Beyond](#) for \$14.99 and don't forget the hand towels and wash cloth!
