Noble Excellence MicroCotton Bath Towel

\$34; Dillards.com

A patented spinning process makes this MicroCotton towel lighter than most towels its size – the way the yarn is twisted and untwisted also yields exquisite softness and absorbency that doesn't wash off. Made of plush 100% long-staple cotton, each towel is available in several rich and earthy solid colors. "Super soft towels, great colors to choose from and they really absorb water," says Julia.
