Feel it once. Love it Forever

Micro Cotton Towels are wonderful. I love the feel I get when I use my new [Micro Cotton Towels](#).

My daughter tried taking the towels, for college, I said "no way". These towels are mine. I love them.

[The Wamsutta Hotel Micro-Cotton Bath Towel](#) infuses your bathroom with a subtle, luxurious touch. Crafted of high-quality ring-spun cotton, this ultra-soft, ultra-absorbent towel is elegantly detailed with softly-hued, embroidered trim.

The towels are so soft. It's almost like being in heaven, when drying with the towel. I love the feel, and I get extra dry. Don't have to worry about still being damp, after drying with this towel.

The washrag gives me a special feel, when bathing with it. I love the way I feel, with these towels. I won't even let my husband use them. They are mine.

[Micro Cotton towels](#) are made from 100% super-soft cotton that lends itself to an indulgent texture. Additionally, due to the unique structure of the yarn, [Micro Cotton textiles](#) become softer after every wash for long-lasting luxury.

I will continue using these towels, as long as I can keep them from the rest of my family. I know that sounds cruel, but every lady needs something of their own. This is my thing. And, now that I know I can go to Bed, Bath, and Beyond to get the [Micro Cotton Towels](#), I will be doing that. I'm getting rid of all my old towels, and replacing them with these. Then my family can share the towels.
