## Biltmore Micro Cotton

**Towel Review:** Biltmore Micro Cotton

Today I traveled to the resort location of Destin Florida and visited the department store Belks.

Together with my friend we inspected all of the pretty fluffy towels. Ok, first I went and rubbed my hand on all of their display sheets. None of those caught my fancy, which is how I ended up in towels.

I evaluated the following towels after speaking to the sales associate who walked me through her opinion of which towels were the best:

- Ralph Lauren
- Lorena Garcia
- Nautica
- Biltmore

The sales associate, my friend and I agreed on the SAME towel, which I decided to buy: Biltmore Micro Cotton. There was the Biltmore Magnificence which was more expensive, however the Micro Cotton, was softer and noticeably lighter. All around, this towel seemed like a winning choice. I will admit, I am keeping my eye on Lorena Garcia and Nautica.

**Results:** I brought the towel home, washed and dried. Got the towel out, and it was a soft and fluffy as I remembered. Now generally most towels shed like crazy the first few washes, and this was is NO exception. I placed the towel next to the shower and see if my husband comments.

So far I like the softness, weight, and construction of this towel.
