GHI ⓘ : ★★★★★

Macy's Hotel Collection MicroCotton towel is in it for the long haul. Unlike almost all of the other towels that we tested, this one still looked pretty good after 25 washes, losing very little of its original color or shape. This durable towel also dried quickly and proved to be highly absorbent from the first wash. It shrank plenty after laundering – though the shrinkage proved average in our tests – but this set's otherwise exceptional performance makes this towel **one of our top picks**. In 18 colors.
